**KOFFEE KUP BAKERY, INC. VOLUNTARILY RECALLS
BREAD PRODUCTS DUE TO POSSIBLE PRESENCE OF PLASTIC PIECES
IN PRODUCT**

BURLINGTON, VT—Koffee Kup Bakery, Inc. has voluntarily recalled approximately 99,000 packages of its bread products due to the possibility that there may be clear plastic pieces in some products. The product recall is limited to the bread products listed below and only those identified by the “use by” dates 9/30/16, 10/1/16, 10/2/16 or 10/3/16, which are printed on the closure tags of each package. Products bearing other “use by” dates were not affected, nor were any of Koffee Kup’s crullers or donuts, which are produced on a different manufacturing line.

Koffee Kup discovered the presence of a foreign object in its bread and roll production through routine screening. The company ceased production immediately and upon further investigation, discovered that a small piece of clear plastic entered the stream of production and broke apart during the production process, thus creating a hard-material choking hazard. The company elected to commence an immediate product recall of all products potentially contaminated by the plastic that entered the production stream.

The recalled products were shipped to U.S. retailers in the states of VT, NH, ME, MA, CT, RI, NY, NJ, PA, MD, VA and the District of Columbia. None of the products were shipped by Koffee Kup or its distributors to Canada or to other countries, to the company’s knowledge.

The following Koffee Kup products may be affected. No Koffee Kup products other than those identified below bearing “use by” dates 9/30/16, 10/1/16, 10/2/16 or 10/3/16 were affected.

Distributors, drivers and retailers have been notified of the recall and have been directed to remove all potentially-affected products from stores, but some products may already have been purchased by consumers. Customers who purchased any of the above-listed products should NOT eat the product, but should return it to the store where it was purchased for an exchange or a full refund. When possible, customers are asked to return the product with the bag and closing clip.

No injuries have been reported to date.
